Discreet computer controlled camera package delivers ease of use and increased functionality! Video without being intrusive! Discreet computer controlled video camera package with mixer allows you to broadcast your service or event online through live video streaming and record to your computer or DVD recorder!

Easily control these high quality cameras from your laptop or desktop computer using the joystick that connects to your computer. Use the simple on-screen computer controls and joystick for smooth pans, tilts, zoom and focus. Kingdom's amazing new camera control programming makes all this possible.

You don't need an electrician! No power receptacles are needed near the cameras because they can be powered and controlled from 100 feet away with the provided white data cables and connections. (Up to 300 feet away with additional cabling). Ceiling mounts included and optional wall mounts are available.

Outstanding 18X optical zoom lens has great clarity! 18X optical zoom reaches up to an amazing 100 feet before going to digital zoom! Fantastic video quality even in low light conditions. Control up to 7 cameras with 6 custom presets per camera.

Feature packed 4 channel Roland video mixer. Great video mixer offers multiple video effects including picture-in-picture, (mixing two video channels together). For example, on the screen, next to the preacher you can easily display any video, picture, or wording that would enhance the impact of the message. The Chroma key feature allows you to change the background, just like a weatherman and his weather maps. It contains a built in audio mixer and touch screen. The included 19" monitor with the quad preview display allows you to view four video inputs at the same time. Great for webstreaming, and DVD ministry.

Full size portable HD Panasonic Video Camera. This high-quality camera has 21X optical zoom and is lightweight for easy transport. With the included durable tripod and carrying bag you can take your

video ministry to another level. Keep everybody involved by producing energetic video announcements. Create video testimonies at any location to encourage and build faith in the church and around the world. Make the sermons more engaging by capturing video clips off site that enhance the sermon points.

\*Not compatible with Apple OS systems.
