Projector Ceiling Mount (Max 44Lbs) - SILVER

Specs & Features:

- Aluminum ceiling projector brackets
- -15 degree +15 degree continuous adjustable tilt
- Height adjustable, extend from 16.9"-25.6" (43-65cm)
- With cable management
- Max load capacity: 20kg/44lbs
- Installation instructions included
- Color: Silver

The wall mount has a maximum load weight limit of 20kg or 44lb. This means that hanging anything heavier than 44lb/20kg is **not recommended** and not safe.

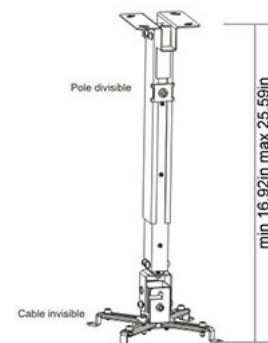

This bracket features tilting option. It allows to tilt your projector 15 degree up and down, which you may find very convenient if you need to change the angle of your projector.

Once you hang your projector on this bracket, the distance between the projector and the ceiling will be 16.9in (folded mode) or 25.6in (fully extended mode) This will allow you to leave

just enough space for the cables that will be plugged in to the projector, which will be useful in particular if the cables are not coming out of your wall directly behind the projector

This bracket is not only handy, but also safe. It has been tested for the presence of Lead, Cadmium, Mercury, Hexavalent chromium, Polybrominated biphenyls, and Polybrominated diphenyl ethers, which are hazardous for the human health if used in above normal amount.
